

Mourning Cards

The Society has a large collection of records of mourning cards, many of which carry information about other members of the family.

In the days before telephones were commonplace these cards were printed to notify relatives and friends about a death and the date and time of the funeral.

The cards have been transcribed and scanned.

Images are now available to Members via the [Look Up Service](#), quoting the image reference.

Please note that some of the images are taken from poor photocopies and for some records we have no image.

The Librarian welcomes further additions to the collection.

Explore the transcriptions below
